JohnMatthew Garcia

Network Engineer Assistant @ University of California, Berkeley |
Data Science @ Berkeley
Berkeley, California, United States

Summary

In my current role as a Network Engineer Assistant at UC Berkeley, I leverage my data science background to enhance network systems and contribute to cutting-edge research support. My daily activities involve delivering comprehensive technical assistance and fostering a collaborative environment for data-intensive projects at UC Berkeley's D-Lab.

With expertise in statistics, finance, and marketing, I support the academic community by enabling data-driven decision-making and advancing research methodologies. My commitment to technology and education is reflected in the tailored advice and support I provide to my peers, ensuring their research endeavors are both innovative and impactful.

Experience

University of California, Berkeley
Network Engineer Assistant
August 2024 - Present (1 year)
Berkeley, California, United States

D-Lab, UC Berkeley
Undergraduate Technician
January 2024 - Present (1 year 7 months)
Berkeley, California, United States

- **Provided Cross-Disciplinary Services:** Delivered in-depth consulting, advising, and access to staff support for software or infrastructure needs at UC Berkeley's D-Lab. Assisted graduate students, faculty, and staff in advancing world-class research in data-intensive social sciences and humanities
- **Offered Comprehensive Research Support:** Guided the Berkeley community through the full research lifecycle, from research development and design to data acquisition, statistical methods, data visualization, and communication.

Created a learning community by teaching workshops and offering consultations

Centers for Educational Equity and Excellence (CE3)

Peer Advisor

September 2022 - September 2023 (1 year 1 month)

Berkeley, California, United States

- Advised and Supported Re-Entry Students: Provided tailored advising and support to members of UC Berkeley's diverse re-entry student population, which includes approximately 2,000 undergraduates aged 25 and older.

Fresno City College

Mathematics Tutor

September 2019 - August 2020 (1 year)

Fresno, California, United States

- Tutored Fellow Students: Provided tutoring to over 20 college students per month in Economics and Math courses, including trigonometry, calculus, linear algebra, differential equations, and formal logic, on an appointment basis
- Monitored Student Progress: Utilized expertise in various subjects to effectively assist students, while monitoring and recording their progress after each appointment

Austin Boom Real Estate

Licensed Real Estate Agent

January 2008 - December 2012 (5 years)

Austin, Texas, United States

Specializing in High-End Downtown Apartments and Condos

- Conducted comprehensive market research to identify high-end properties in downtown Austin suitable for prospective clients.
- Showcased luxury apartments and condos to potential buyers and renters, highlighting key features and benefits tailored to their preferences.
- Managed client relationships through consistent communication and exceptional customer service, ensuring a seamless and personalized experience.

- Utilized various marketing strategies, including online listings, open houses, and virtual tours, to effectively promote properties and attract qualified leads.
- Provided clients with detailed information on market trends, property values, and investment opportunities to support informed decision-making.
- Maintained accurate records of client interactions, property showings, and transaction progress using CRM software and other tools.

Education

UC Berkeley College of Computing, Data Science, and Society
Bachelor's degree, Data Science

Fresno City College
Associate of Arts, Economics
